

Report for Innovate @ BVSD: BLDG 61 Maker Pop up participant interviews

Response Counts

1. Tell me about your dreams or your dreams for your children?

Count Response

2	Construction man. Im going to make a huge fidget spinner.
1	Being innovative, being engaged. Know places to go to get information
1	Cats. I want to be a gymnast. and a soccer player
1	I want my children to be imaginative, creative, have tons of knowledge and try everything and know where to get more information.
1	I would like my girls to be exposed to as much culture, technology, education as possible.
1	I would love to see them have tools on hand to become more professional creators.
1	That they become creative and confident adults.
1	They are happy and fulfilled in their lives..
1	To be self sufficient. Able to change a tire.
1	To be successful and to be happy.
1	To have a happy adventurous life.
1	To provide them with as many experiences and opportunities for broadening their horizons and visions of all the things they can do in life.

2. What are the barriers to achieving those dreams?

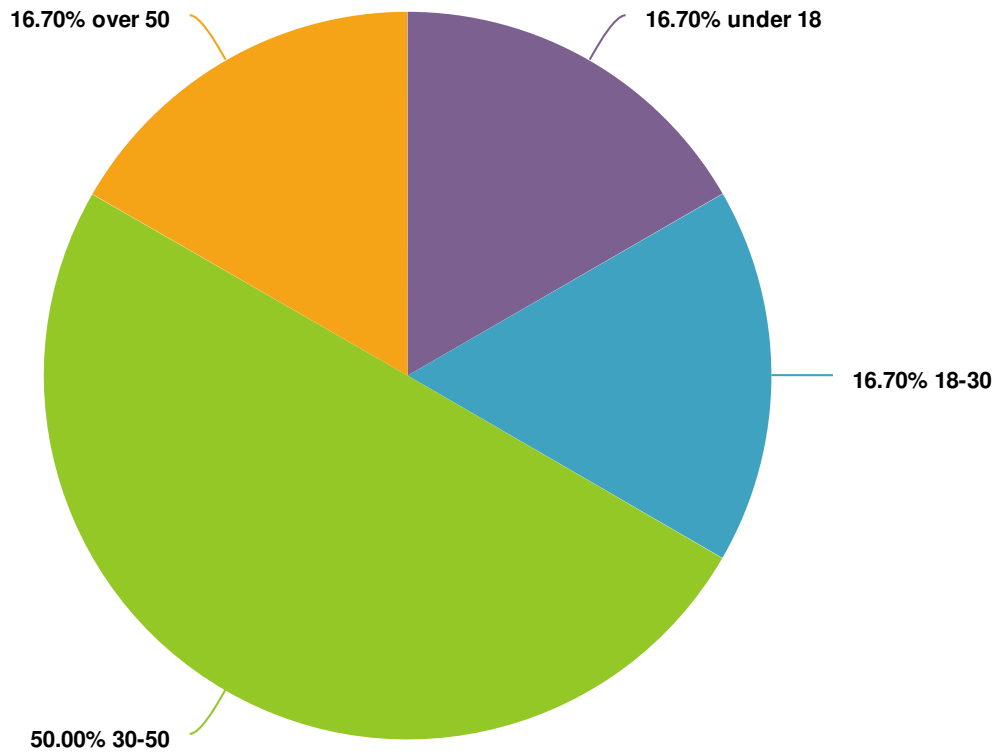

Count	Response
2	Getting injured.
1	Cost. Access. Interest
1	Crushing national debt. Nuclear wars. Rising college tuition. Lack of network.
1	Finances. Ability to explore
1	Finding the right opportunities in the community.
1	I could break an arm
1	Lack of opportunities. Not having access to knowledge, tools.
1	Lack of tools, space, time. Kids are too overprotected. Can't play in a meaningful way.
1	T and moneyime
1	The technology piece is daunting from a financial standpoint. My girls have been interested in 3d printing for awhile, but buying one for the house at this point is unrealistic
1	They have so much opportunity around here. Financial barriers.
1	Too much tv or easy answers take away motivation.

3. How can the library help you to achieve your dreams?

Count Response

2	To live inside books. Dinosaurs would be there. Three D printed T Rex.
1	Building 61 expand their hours, 24 hour access. I love the ;equipment. But very crowded during business hours.
1	Continue with Building 61, concert series. More opportunities for tweens.
1	Go for library to go into the schools, be a resource.
1	I love Maker Space ideas. Great ideas.
1	I love the new children's room. Summer reading program is too young for them.
1	Makers Space is very engaging. How to take the next step to take it to a higher level.. How to learn from an expert adult. Available role models. A gallery of work to see others work.
1	Marketing of classes. Appropriate ages. More woodworking.Common trades. How to build a dog house or a table.
1	North Boulder Library open more hours. More programming in the community. Library could come to my kids school or the park.
1	Teaching me good strategies to get my position.
1	The libraries ability to provide technology that is out of reach of individuals is tremendous. 3d printing, spheros, programming, are all things the library can provide. The drop in sessions as well as mini camps are a great idea.
1	To keep modernizing. More access to technology

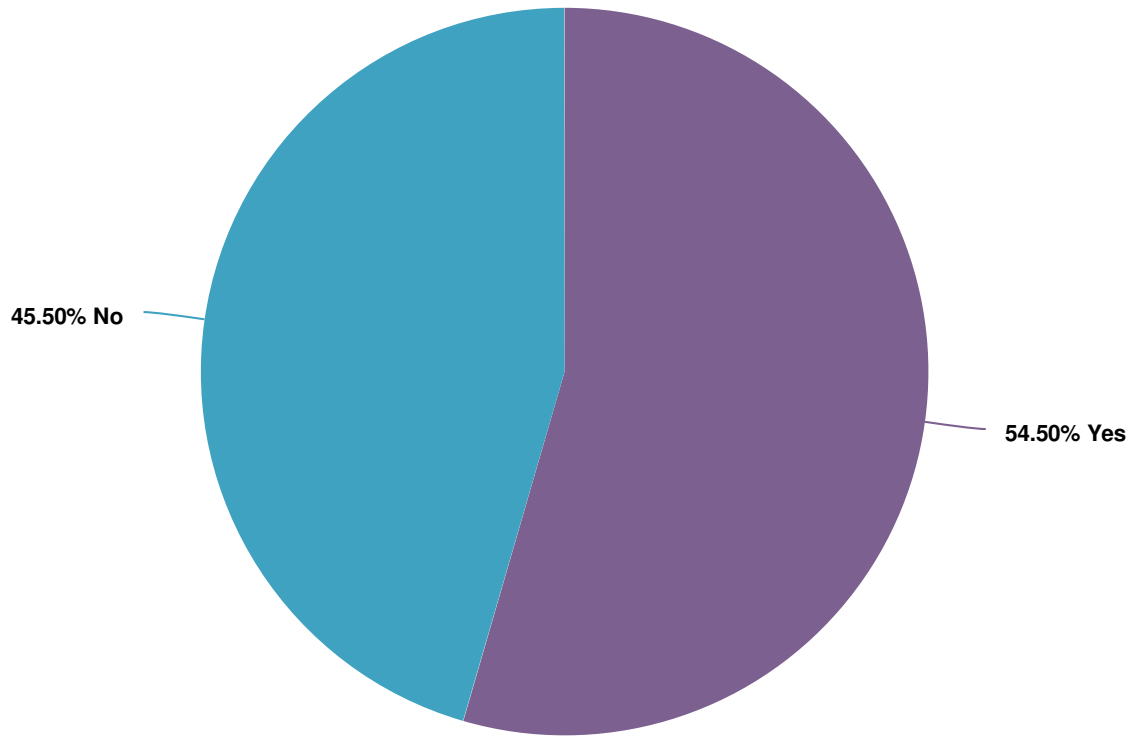

4. Age:

Value		Percent	Responses
under 18		16.7%	2
18-30		16.7%	2
30-50		50.0%	6
over 50		16.7%	2

Total: 12

5. Came with children:

Value		Percent	Responses
Yes		54.5%	6
No		45.5%	5
			Total: 11
